

A/V NEEDS

I'm very excited to come and speak to your group! I'll try to keep this simple.

Here's what my typical A/V needs are:

- LCD projector and screen/monitor (no sound or video in my ppt)
- Headset (countryman/headset) mic preferred, handheld still fine. It would also be great to have an additional handheld mic to work the crowd with.
- FOR CHANGE and RESILIENCE KEYNOTE ONLY (or if we talked about it!): Cable to plug a 3-pin XLR cable into in order to amplify my acoustic guitar. I will bring a Passive Direct Box and 20ft XLR Cable. (I'm happy to discuss any questions or challenges with the AV team, and I can leave it at home if it's too much bother!)

Other Miscellaneous Needs:

- Your cell phone number so I can shoot you a quick text to let you know I made it to town, giving you one less thing to worry about right before the event. (or let you know if there's a problem, giving you one more thing to worry about. But hopefully the former! Mine is 443-253-2634)
